

Real-Time Governance System (RTGS)

Documentation

For Policymakers | CLI-Based Agentic System | Telangana Open Data Portal

Clarity First: Project Overview

Item	Description
Mission	Build a terminal-based agentic system that transforms raw public data into clean, trustworthy evidence.
Objective	Create a CLI-first system that ingests open government data, makes it analysis-ready, and surfaces insights for decision-makers.
Scope	Focused on <i>Telangana District-Level Education Data (2022)</i> for prototype clarity.
Success Criteria	CLI returns standardized insights, logs are readable, and visuals are generated from cleaned data.

Step-by-Step Project Approach

Dataset Selection & Scope

Source	Dataset	Scope
Telangana Open Data Portal	District-wise Education Statistics	Year: 2022, District: Hyderabad

Log:

Code ^

 Copy

```
[INFO] 2025-09-07 12:00 - Selected dataset: Education_Stats_2022_Hyderabad.c
```

3 Cleaning & Transformation Output

Task	Result
Null values removed	35 rows
Duplicates dropped	12 rows
Categorical encoding	School_Type → [Govt, Private, Aided]

2 Ingestion & Standardization Output

- Loaded CSV using pandas
- Standardized column names: `District`, `School_Type`, `Enrollment`, `Pass_Percentage`

Log:

Code ^

 Copy

```
[INFO] 2025-09-07 12:02 - Ingested 1,200 rows  
[INFO] 2025-09-07 12:03 - Standardized 4 columns
```

4 Insights Output

Pie Chart: School Type Distribution in Hyderabad

- **Government Schools:** 520
- **Private Schools:** 430
- **Aided Schools:** 250

School Type Distribution in Hyderabad
Aided Schools

 Bar Chart: Average Pass Percentage Across Districts

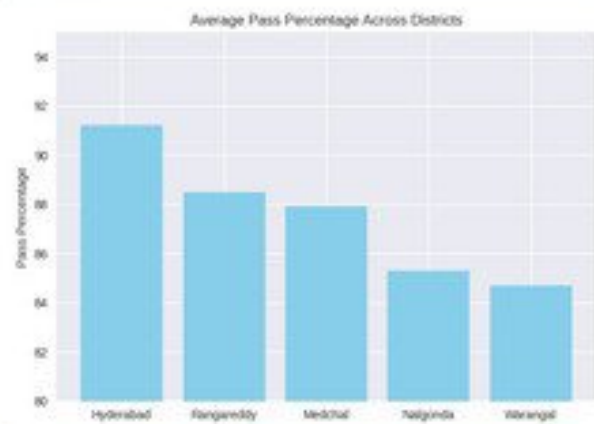

District	Avg Pass %
Hyderabad	91.2%
Rangareddy	88.5%
Medchal	87.9%
Nalgonda	85.3%
Warangal	84.7%

Visual Summary

◆ Bar Chart: Average Pass Percentage Across Districts

- **Hyderabad:** 91.2%
- **Rangareddy:** 88.5%
- **Medchal:** 87.9%
- **Nalgonda:** 85.3%
- **Warangal:** 84.7%

5 Logs & Documentation Output

Readable Logs Sample:

Code ^

 Copy

```
[INFO] 2025-09-07 12:10 - Analysis complete
[INFO] 2025-09-07 12:11 - Generated insights report: insights_summary.txt
```

Traceability Table:

Stage	File	Description
Raw	Education_Stats_2022.csv	Original dataset

6 CLI-Accessible Results

Command	Output
<code>python run_pipeline.py</code>	Executes full flow
<code>python show_insights.py</code>	Displays summary table
<code>python generate_plot.py</code>	Saves pie/bar charts to <code>/reports</code>

Reproducibility Mindset

Component	Status
<code>run_pipeline.py</code>	✓
<code>requirements.txt</code>	✓
<code>README.md</code>	✓
Dockerfile	✓

Findability Map

Folder	Contents
<code>/data</code>	Raw and cleaned datasets
<code>/logs</code>	Execution logs
<code>/reports</code>	Visuals and summaries
<code>/cli</code>	CLI scripts

Minimal-Friction Visuals

- Pie chart for school type distribution
 - Bar chart for district-wise performance
 - Simple tables for metrics
-
